Prior to this, Mr. Sanchez served as an elected member of the Santa Clara County Board of Supervisors for 18 years, a Gilroy City Councilmember for 14 years, and Mayor of the City of Gilroy for five years.

THANKING GEORGE MCNEILL FOR
HIS SERVICE TO THE RIPON SO-
CIETY

HON. THOMAS E. PETRI

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, November 19, 2009

Mr. PETRI. Madam Speaker, I rise today to recognize George McNeill for his many years of service to the Ripon Society.

For the past five years, George has served as Chief Administrative Officer of the organization. In this position, he has not only run the day-to-day affairs of the group, he has also helped position it as one of the leading voices of centrist Republican thought in Washington, D.C.

As one of the founders of the Ripon Society, I have to confess—when we established the organization in 1962, we could only dream of

some of the things it has achieved since that time. Through his hard work and dedication, not only as the Chief Administrative Officer since 2004, but also as a member of the Ripon Board of Directors dating back to 2001, George has helped turn that dream into a reality.

In the process, he has not only made a difference in the life of the Ripon Society, he has also added another impressive chapter to his own rich and full life. It is a life that has taken George from the streets of his birthplace in the Bronx to the hills of his ancestral home in Scotland, from the jungles of his tour of duty in Vietnam to the meadows of his current home in Danby, Vermont. It is also a life dedicated to service, and one that has revolved around his loving family and devoted friends.

George has indeed worn many titles in his lifetime, earning the respect of friend and foe alike along the way. But the title that he is perhaps most proud of is that of husband and father. George and his wife Barbara are the proud parents of two wonderful daughters—Megan and Caitlin.

George recently announced that he is retiring as Chief Administrative Officer of the Ripon Society. It is a real loss for the organization. Those of us who have worked with and gotten to know George over the past several years will miss him and are sorry to see him go. But we also understand that, after five years of commuting weekly back and forth between Vermont and Washington, the time has come to return home.

We thank George McNeill for his service to the Ripon Society. We honor him for his many contributions to the group and for advancing policy debate in Washington. And we wish him all the best in the years ahead.

RECOGNIZING NOVEMBER AS
NATIONAL DIABETES MONTH

HON. DIANA DeGETTE

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, Nov. 19, 2009

Ms. DeGETTE. Madam Speaker, this week the co-chairs of the Congressional Diabetes Caucus joined with 129 original cosponsors to introduce H. Res. 914, a resolution supporting the observance of National Diabetes Month.

The resolution encourages people in the United States to fight diabetes through raising public awareness about stopping diabetes and increasing education about the disease. It also recognizes the importance of early detection, awareness of the symptoms of diabetes, and the risk factors for type 2 diabetes. Finally, it supports decreasing the prevalence of diabetes, developing better treatments and working toward an eventual cure for type 1 and type 2 diabetes.

Since diabetes afflicts nearly 24 million Americans and is the seventh leading cause of death, we must increase awareness and encourage the research to find cures. National Diabetes Month is observed every November and is an excellent way to build awareness about both type 1 and type 2 diabetes. Too many people are not familiar with the differences between type 1 and type 2 diabetes and how they are treated, what the risk factors are, and what sort of research is needed to make progress in the fight against this disease.

That is why the mission of the Congressional Diabetes Caucus is to educate Members of Congress and their staff about diabetes. It is also our mission to support legislation and other efforts to improve diabetes research, education, and treatment.

The legislative priorities of the Congressional Diabetes Caucus support the goals and ideals of National Diabetes Month. For example, H.R. 1995, The Eliminating Disparities in Diabetes Prevention, Access and Care Act, is designed to promote research, treatment, and education regarding diabetes in minority populations. This specific focus will help us address the unique challenges faced by minority populations and provide more effective treatment and education.

H.R. 1625, the Equity and Access for Podiatric Physicians Under Medicaid Act, would classify podiatrists as physicians for purposes of direct reimbursement through the Medicaid program. Podiatry is critical to the treatment and understanding of diabetes.

The Medicare Diabetes Self-Management Training Act, H.R. 2425, would make a technical clarification to recognize certified diabetes educators (CDE) as providers for Medicare diabetes outpatient self-management training services (DSMT). CDEs are the only health professionals who are specially trained and uniquely qualified to teach patients with diabetes how to improve their health and avoid serious diabetes-related complications. The 1997 authorizing DSMT statute did not include CDEs as Medicare providers. This exclusion has made it increasingly difficult to ensure that DSMT is available to patients who need these services, particularly those with unique cultural needs or who reside in rural areas.

Another bill that is a priority of the caucus is the Preventing Diabetes in Medicare Act, H.R. 2590. This bill would extend Medicare coverage to medical nutrition therapy (MNT) services for people with pre-diabetes and other risk factors for developing type 2 diabetes. Under current law, Medicare pays for MNT provided by a Registered Dietitian for beneficiaries with diabetes and renal diseases. Unfortunately, Medicare does not cover MNT for beneficiaries diagnosed with pre-diabetes. Nutrition therapy services have proven very effective in preventing diabetes by providing access to the best possible nutritional advice about how to handle their condition. By helping people with pre-diabetes manage their condition, Medicare will avoid having to pay for the much more expensive treatment of diabetes.

In addition, we are working hard to pass, H.R. 3668, and reauthorize the Special Diabetes Programs for Type I Diabetes and Indians. This program provides federal funding for the Special Statutory Funding Program for Type I Diabetes Research at the National Institutes of Health and the Special Diabetes Program for Indians at the Indian Health Service. H.R. 3668 would extend these critical programs through 2016 and increase funding for both programs to \$200 million a year.

I want to thank my colleague, Congressman MIKE CASTLE, for his many years of leadership working together with me as Co-Chair of the Diabetes Caucus. I also want to thank the many Members who are supporting this effort and both sides of the House leadership for their bipartisan support of diabetes issues. I look forward to working with the Congressional
